Floor Plan - Communications Cable

Center:	Las Vegas CC (030) - NV	Company Name:	
Show:	SEMA SHOW	Booth / Room #:	
		Customer / Ref #:	2011 - 030 - 855 -

Voice and Data communications cabling. Smart City is the **exclusive installer** of all cabling (except Electrical) including but not limited to Voice and Data communications cabling. Smart City provides cabling to booths, within booths (under carpet and flooring) and from booth-to-booth. Fiber Optic, twisted pair (Category 3, 5 and 6), coaxial and all other non Electrical cables fall under Smart City's area of expertise.

IMPORTANT!! Prior to installation of service, a complete floor plan is required. Please utilize this grid should you not have your own floor plan to send us. You may use a different floor plan for each service group (Telephone, Internet, etc.) or combine all services on one floor plan. For a floor plan to be considered complete it **must** include all the information listed below (Main Distribution Location "MDL", designated location of items within the booth, surrounding booths, scale-length and width).

Main Distribution Location (MDL) – The originating line(s) for service, whether from overhead, a floor pocket or a column, will be delivered to a "MDL" before being distributed within your booth. Example: Storage area, back of booth, etc. (unless specified, the default for the "MDL" will be the back of the booth or at Smart City's discretion, the most convenient location). All distribution of services to their final destination within the booth will originate from the "MDL". A per line move fee will apply to relocate services within your booth after they have been engineered and / or installed.

T = Location of Telephones, Fax lines or other telecommunications equipment "T".

I / PC / C = Location of primary Internet Service "I", Audio Visual "AV", Hubs "H", Patch Cables "PC" and / or Computers "C". For Smart City to perform your floor work, you will need to indicate the location of each item you want cabled. Make sure to order your floor work, hubs, and patch cables early and in advance of the show moving in.

<u>Orientation</u> = The Booth or Aisle #'s surrounding your booth. A minimum of one surrounding Booth or Aisle # is required (two or more would be more helpful) for Smart City to accurately install your services.

Size = Booth dimensions (example 10x10)	٠.	Scale = 1 Box is equal to	_ ft

Floor Work / Labor - Communications Cable

Center:	Las Vegas CC (030) - NV	Company Name:	
Show:	SEMA SHOW	Booth / Room #:	
		Customer / Ref #:	2011 - 030 - 855 -

Smart City has the exclusive contract to install all cabling (except Electrical) including but not limited to voice and data communications cabling. This includes all cabling to booths, within booths (under carpet and flooring) and from booth-to-booth. Fiber optic, twisted pair (Category 3, 5 and 6), coaxial and all other non Electrical cables fall under Smart City's area of responsibility.

- **❖ Labor cost** \$75.00 an hour per technician, with a one hour minimum.
- ❖ Floor work Estimated at 4 cables per hour (this is a conservative estimate assuming normal circumstances with timely request for service and a complete floor plan received at least 5 days before show move in. Charges could be greater than our estimate for a variety of reasons such as floor work was ordered late, carpet had already been laid, obstructions / physical structures and other miscellaneous issues that can make cabling more labor intensive and time consuming).
- Smart City Cat 5 Cable \$50 each (50 ft. cable)

Please select the floor work option that you will require for your booth:

Yes, we will need to order floor work from Smart City for our booth.
Estimated number of labor hours. Please add this to our order.
No, we will not require floor work for our booth. We will not be laying our cables across aisles or under carpet or flooring.

Please select the cabling option that you will require for your booth:

☐ Smart City Provided Cable. We prefer Smart City to provide the cable for our booth.
Number of Cat 5 Cable(s) at \$50 each. Please add this to our order.
Exhibitor Provided Cable. We will provide our own cable for our booth and understand the following

- We will not be placing cable across aisles, across traffic flow areas, under carpet or under flooring.
- Smart City can only accept cable and cannot accept hubs, routers, switches or other equipment.
- Smart City cannot guarantee service on Customer/Exhibitor provided cable(s) and/or equipment. Connectivity can be guaranteed only to the point where Smart City's services originate in the booth.
- Any request for trouble diagnosis or problem resolution found not to be the fault of Smart City may be billed to the Exhibitor at the prevailing rate (for example, faulty equipment or damaged cable).
- Cable(s) must be shipped two weeks prior to the show opening to:

Las Vegas Convention Center 3150 Paradise Rd. LVCC Warehouse (Door #12) Attn: Smart City/Chris Martinkovich Las Vegas, NV 89109
