HALOGEN LAMP RESTRICTIONS
The LVCVA has placed a ban on certain halogen lamps. The use of stem or track-mounted halogen light fixtures are not allowed unless they meet the following requirements:

- Must utilize a self-shielded bulb.
- Bulb wattage must not exceed the listed wattage permitted by the fixture manufacturer.
- Wattage may not exceed 75 watts at any time.

**UNAPPROVED HALOGEN BULBS**

- Linear Bulbs
- Line Voltage
- MR 11/16 Uncovered Voltage
- Low Voltage Bi-Pin

**APPROVED HALOGEN BULBS – 75 watts max**

- PAR 14, 16, 20, 30, 39
- MR 11/16 Covered Low Voltage
- MR 11/16 Covered Line Voltage
